23 Mentors!

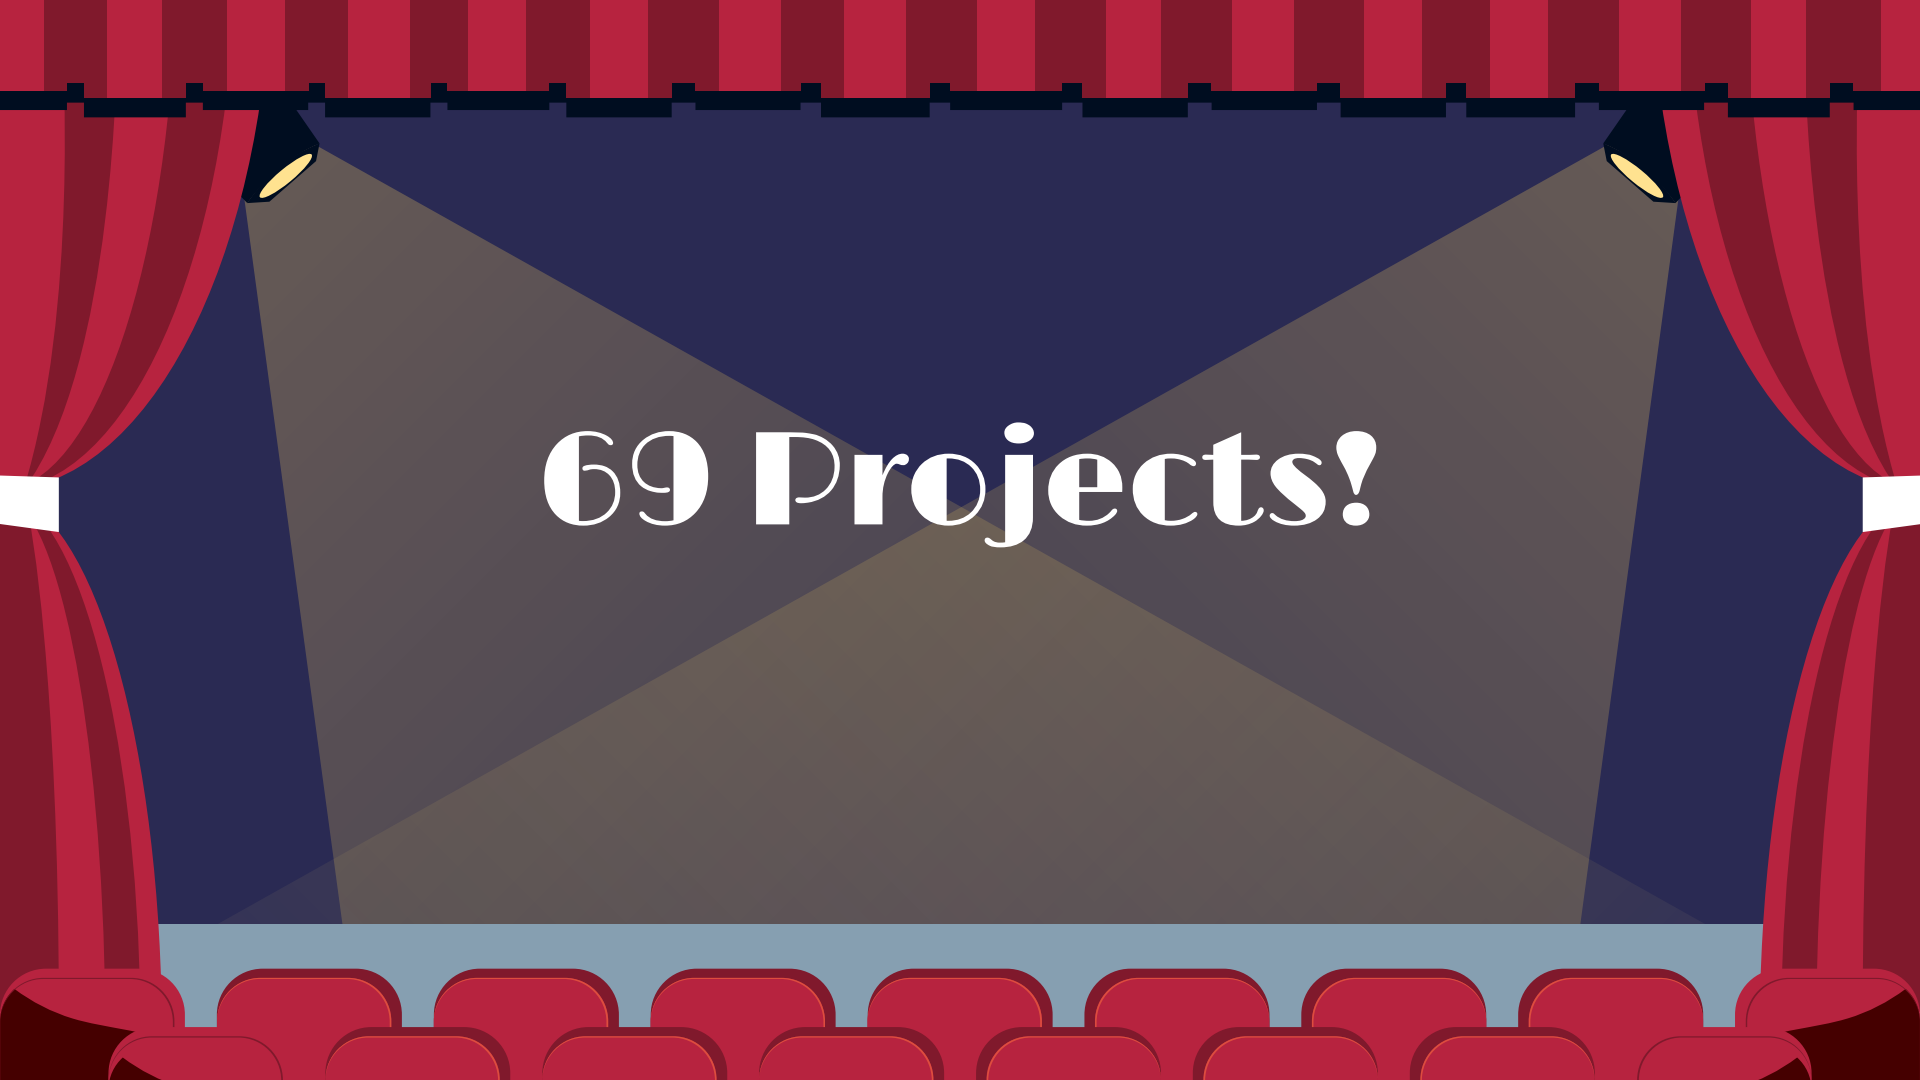

12 Company Representatives!

21 Judges!

A stylized illustration of a theater stage. At the top, there are red curtains with vertical stripes. Two spotlights are mounted on the curtains, casting a bright, dark blue beam of light onto the center of the stage. The stage floor is a light blue color. In the foreground, there are several rows of red theater seats. The text is displayed in the center of the stage, within the spotlight beams.

1 Project!

An illustration of a woman with blonde hair, wearing a black blazer over a white shirt and black pants, standing on a stage. She has her arms crossed and is standing on a yellow star on the floor. A spotlight from a black light fixture in the upper left corner illuminates her and the star. To her left is a red director's chair with a yellow star on the backrest. The stage is framed by red curtains on both sides. The background is a dark blue wall. In the foreground, the tops of several red theater seats are visible.

Celsius

**Time to announce
the winners!**

The background is a stylized stage. At the top, there are red curtains with white ties. The main background is a dark blue gradient. On the right, a red podium with two microphones stands on a red carpet. A spotlight from the bottom left illuminates the podium and the text. In the foreground, there are yellow stanchions with red ropes. A small black spotlight is on the floor to the left.

Track 1

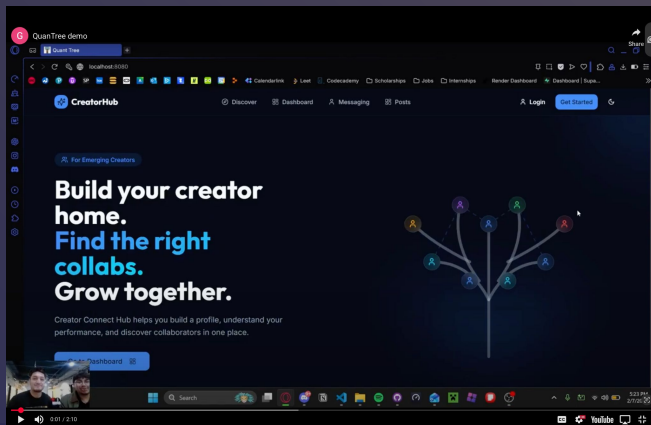

Creative Empowerment

3rd Place

**Logitech Wave Keys
Ergonomic Wireless
Keyboard**

Team 21: Quant Tree

Quant Tree is inspired by a shared Discord community and the idea of “roots and branches,” symbolizing creators grounding their identity while branching out to collaborate. It’s an all-in-one analytics and collaboration platform built with a React/TypeScript frontend and a Firebase backend, created while learning new tools and focused on connecting content creators worldwide.

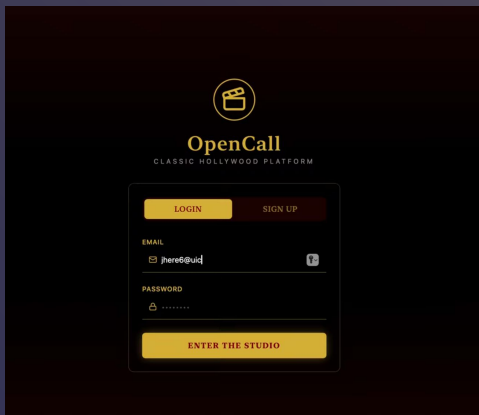

2nd Place

**4K Digital Camera (64MP,
Dual Lens, Anti-Shake)**

Team 17: Open Call

OpenCall is a match-based talent discovery platform for film and TV that connects writers, actors, and producers through creative alignment—story, tone, roles, and vision—rather than popularity metrics like followers or likes. Built as a hackathon MVP, it reimagines creative discovery by removing algorithmic pressure, prioritizing fit over virality, and enabling more intentional, equitable collaboration.

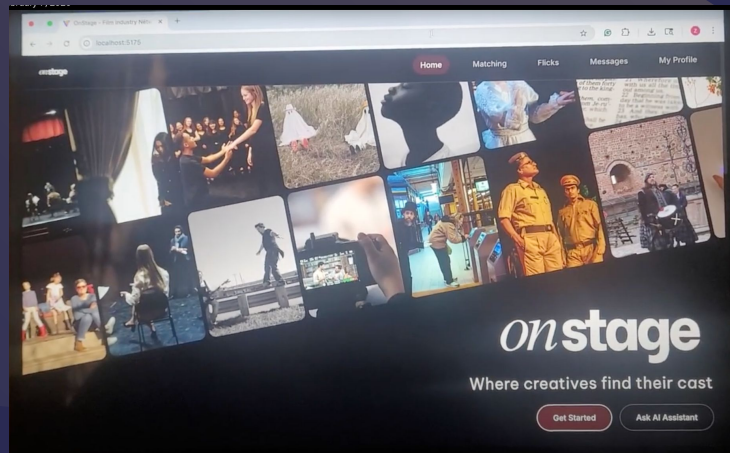

1st Place

Amazon Fire HD 8 Tablet (8" Display 32 GB)

Team 4: OnStage

OnStage is a discovery platform for film creatives that matches collaborators based on creative alignment instead of résumés or connections. It reduces gatekeeping by helping emerging talent showcase their voice and find the right people to bring stories to life.

Track 2

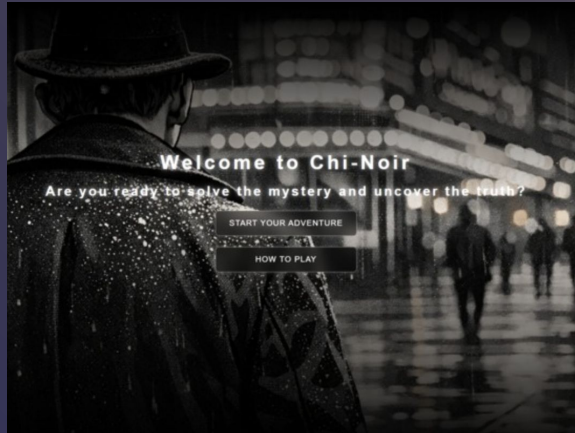

Narrative Storytelling in an Interactive Application

3rd Place

Fitbit - Fitness Tracker

Team 32: ChiNoir

Our storytelling game puts the user in the shoes of a detective, which the detective investigates two murder scenes including 3 clues each, where they are only allowed to check 2 clues, they have to pay attention to details and figure out the murderer based on the given 4 suspects in the end.

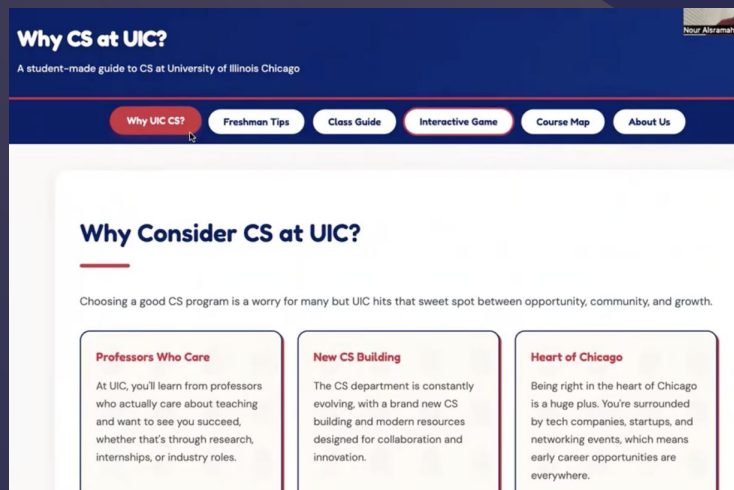

2nd Place

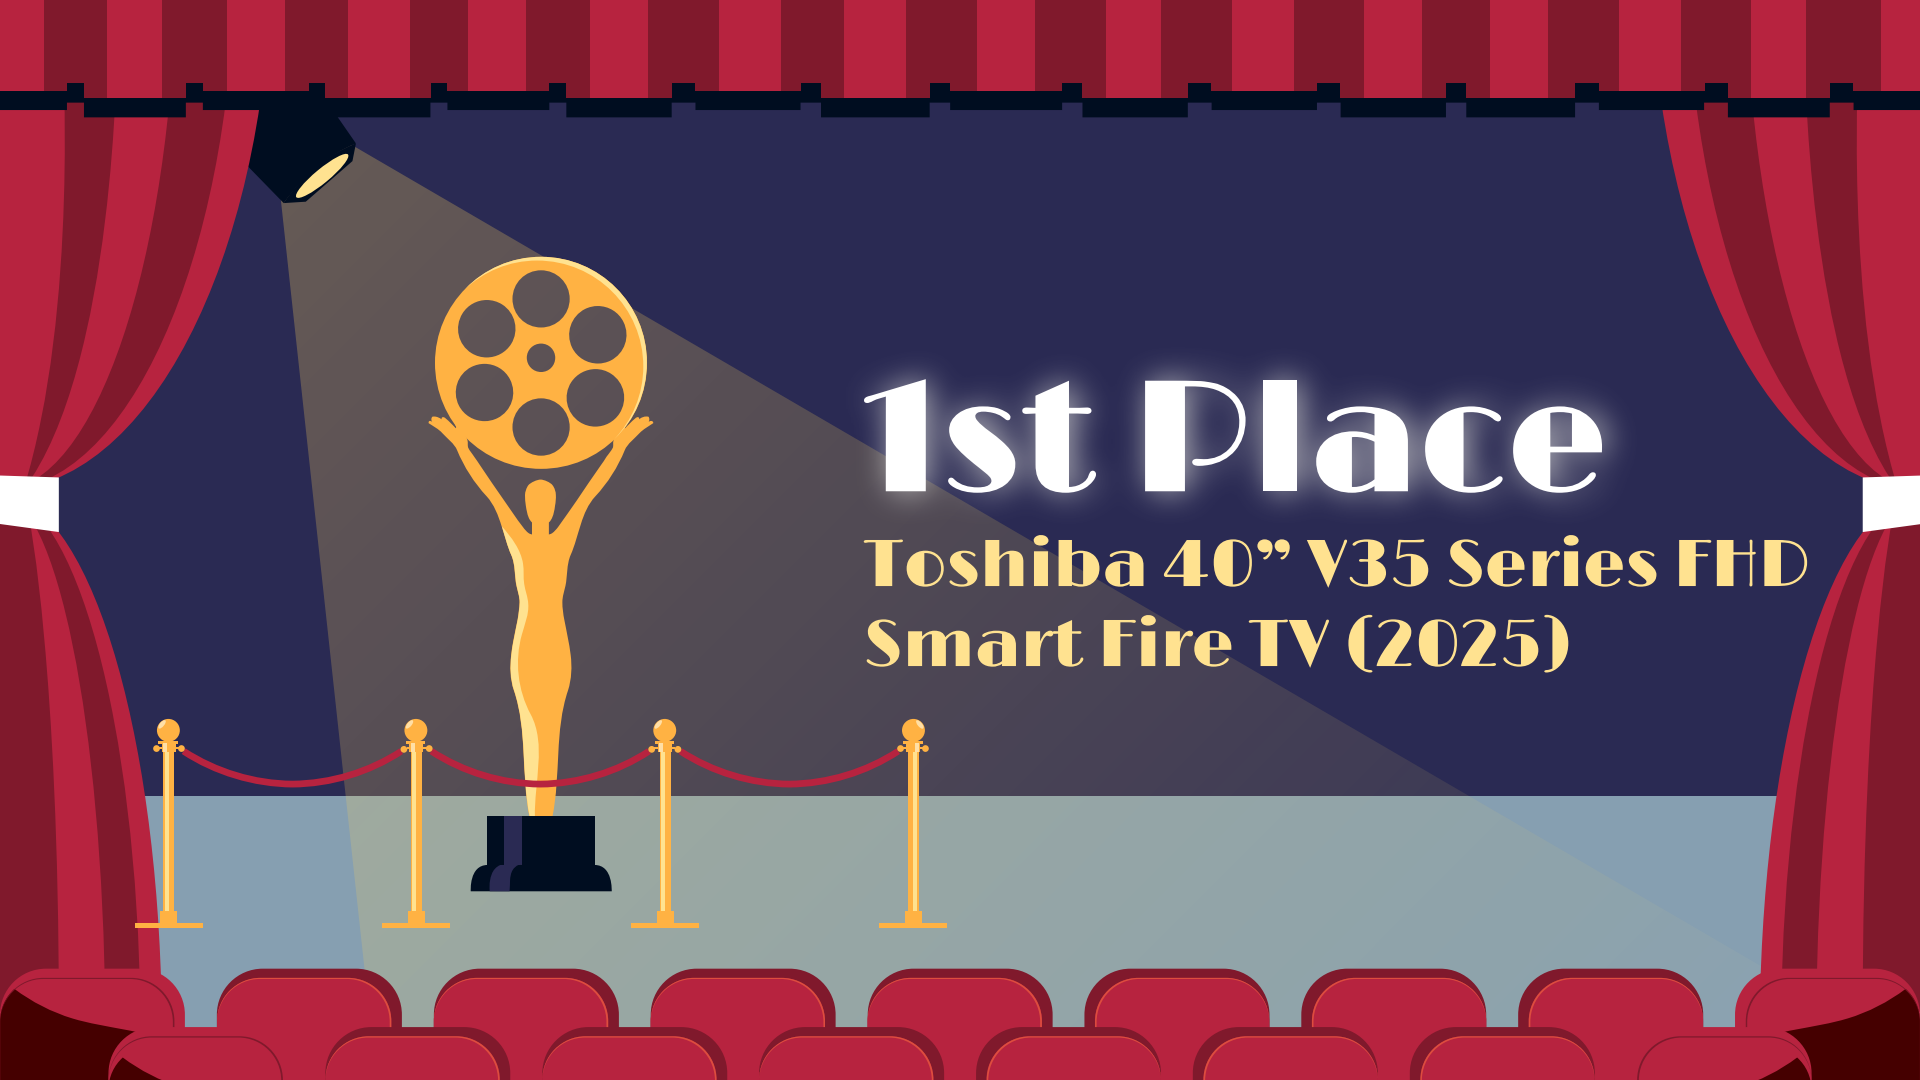

**Sony WH-CH520 Wireless
Headphones**

Team 34: Why CS at UIC

The website has tabs where you can read about reasons to choose CS at UIC, tips we wish we had as freshmen, and an interactive Unity game we built so students can explore and play in a virtual environment. You can also check out some of the classes offered and read reviews, as well as learn more about our team and story in the About Us section.

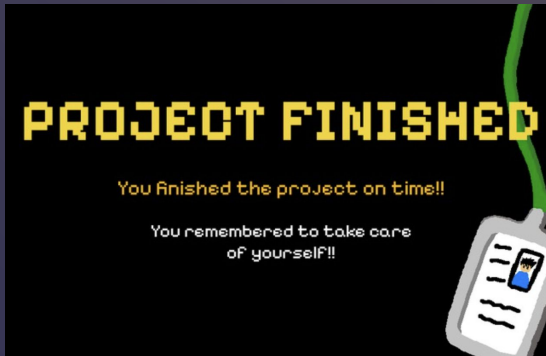

1st Place

**Toshiba 40" V35 Series FHD
Smart Fire TV (2025)**

Team 25: Workaholic

Workaholic is a narrative typing game where you balance meeting a project deadline with managing burnout by taking breaks. Built during our first hackathon using Godot, Aseprite, and Photoshop, it highlights the importance of sustainable work habits and mental health.

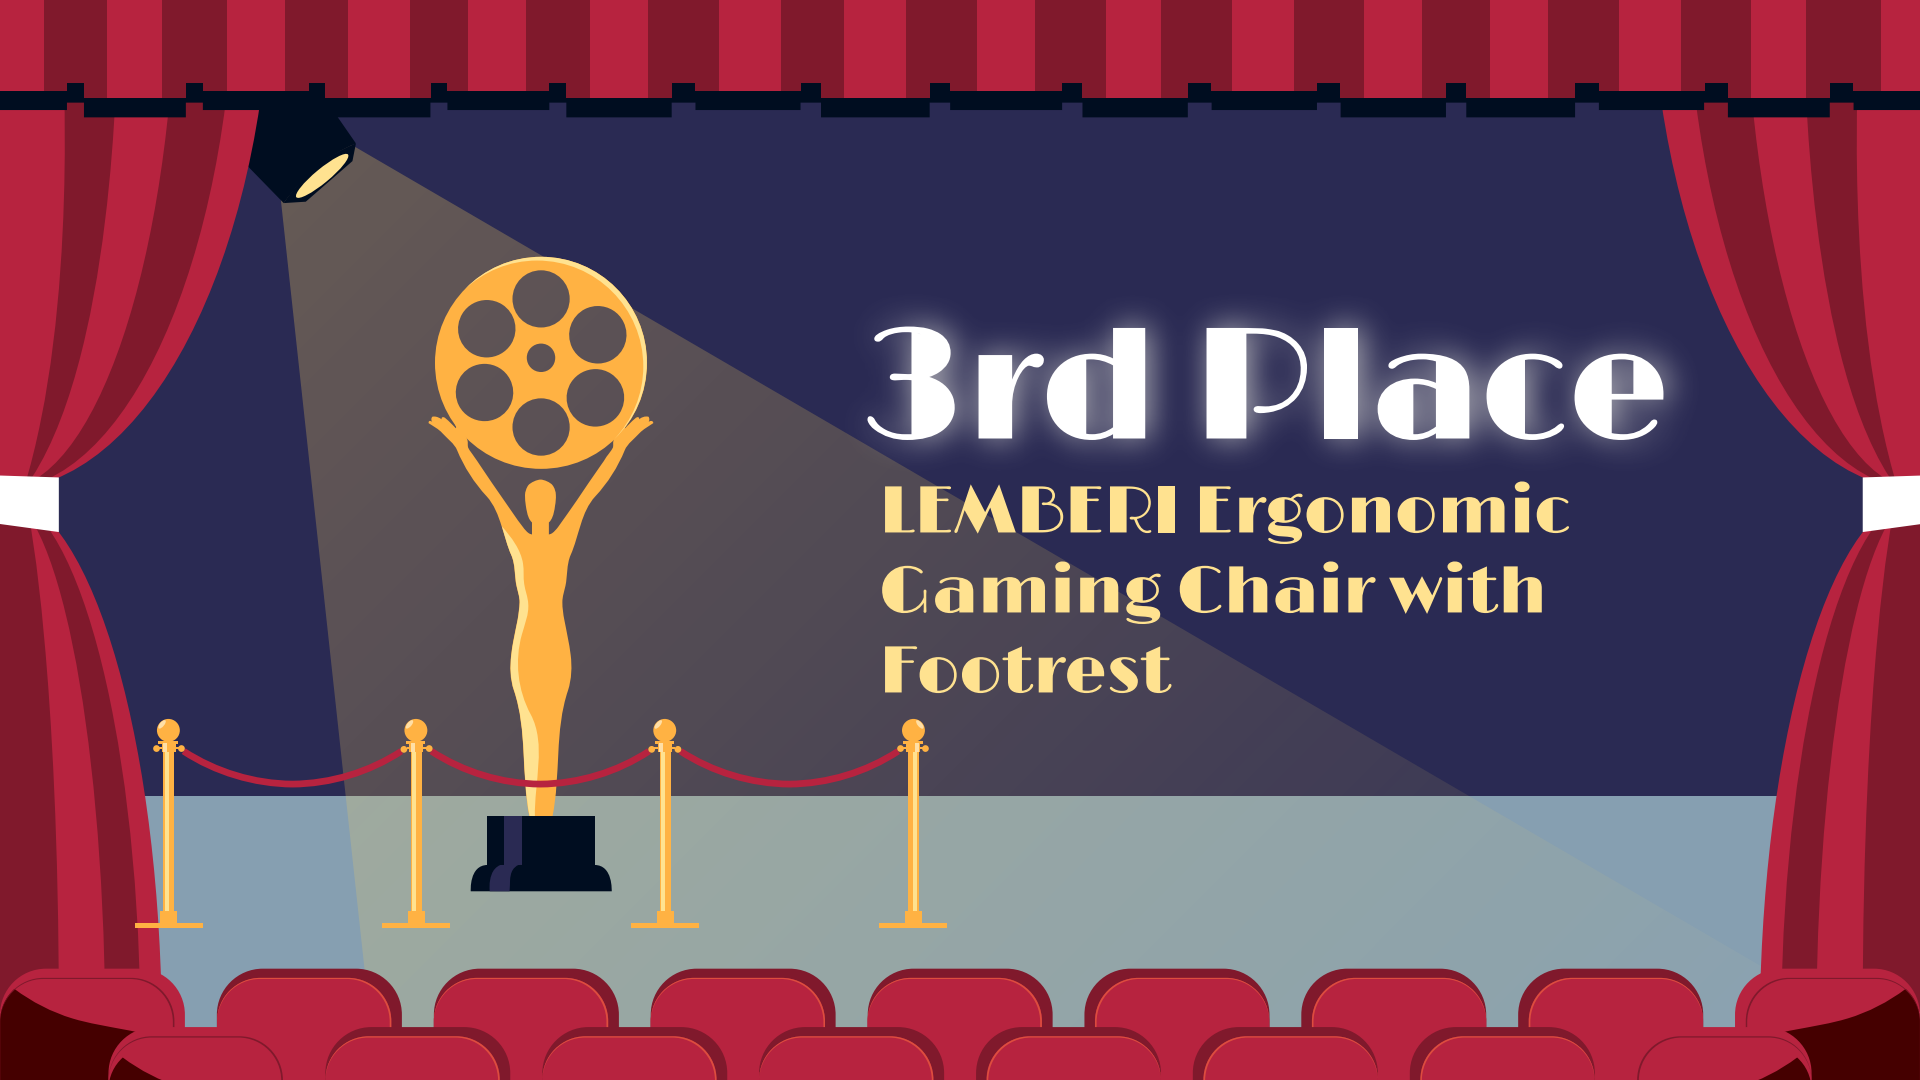

The background is a stylized stage scene. At the top, there are red curtains with a dark blue valance. Two spotlights from the bottom corners cast beams of light onto a dark blue stage floor. A red carpet with yellow side lines leads from the bottom center towards the stage. The text is centered on the stage floor.

FairFix was inspired by how confusing and exploitative car maintenance can be, especially when consumers lack clear information on pricing and service timing. It's a data-driven platform that helps drivers understand what service their car needs, what a fair price looks like, and where to get it done—so they can maintain their vehicles with confidence.

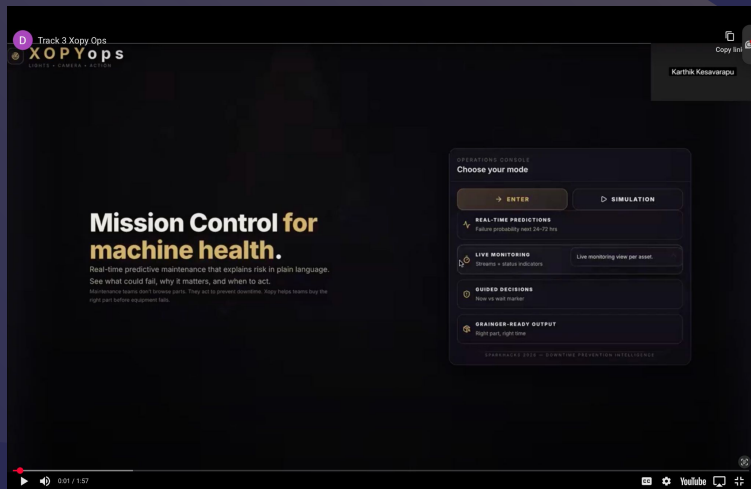

2nd Place

**Amazon Echo Dot Max
(Newest Model)**

Team 55: XOPYops

XOPYops was inspired by the high cost of industrial downtime and the idea that teams need to anticipate failures, not just react to them. It's a real-time equipment lifecycle simulation and dashboard that visualizes wear, failure risk, and tool health so teams can act before breakdowns occur.

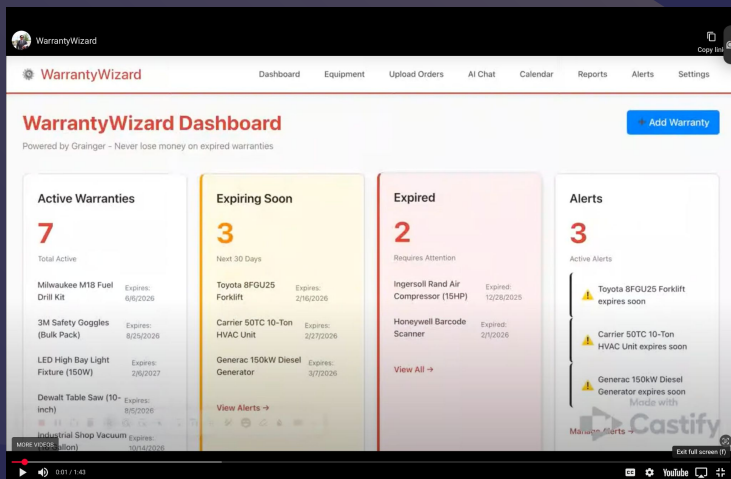

1st Place

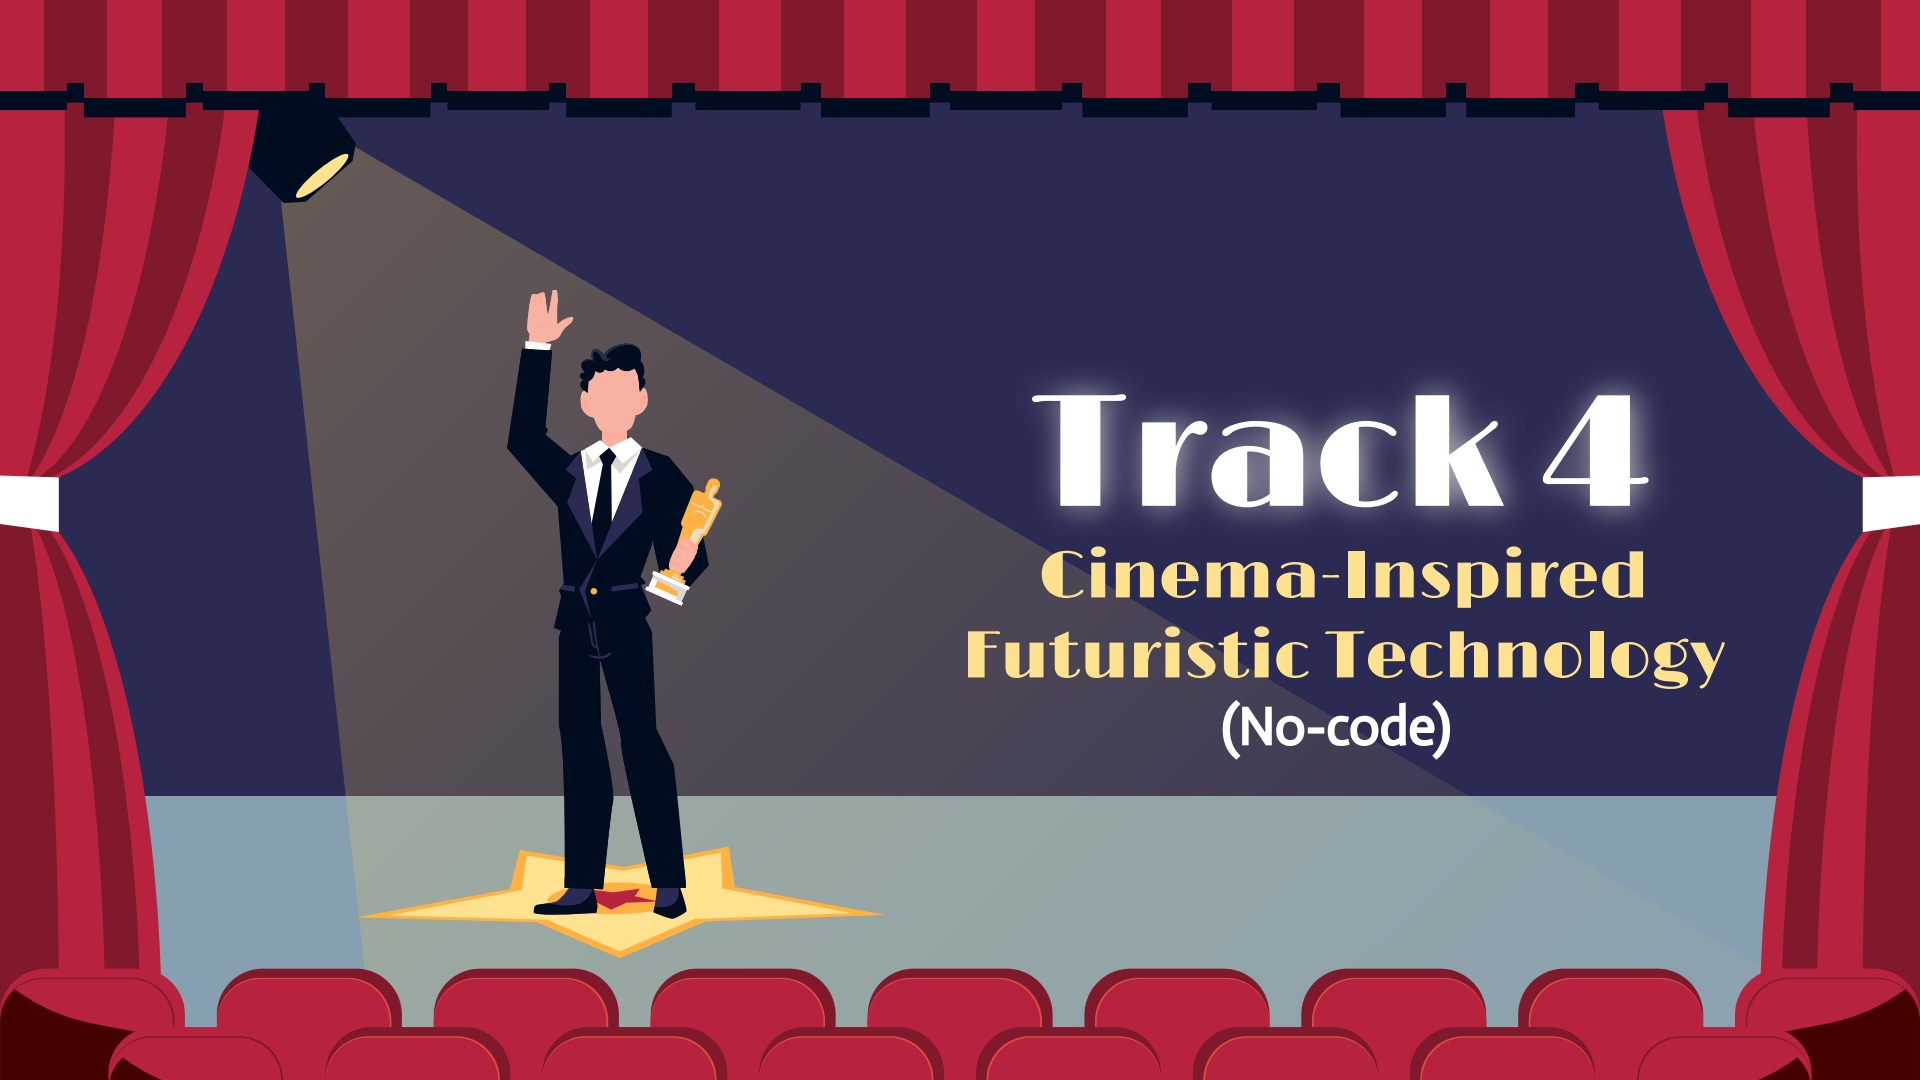

**Insignia™ 32" F20 Series HD
Smart Fire TV**

Team 49: Warranty Wizard

WarrantyWizard was inspired by the millions enterprises lose each year from missed and fragmented warranty data, leading to unnecessary replacements and wasted costs. It's an AI-powered platform that centralizes warranty tracking, extracts details from invoices, and proactively alerts organizations so they never miss a warranty claim again.

Track 4

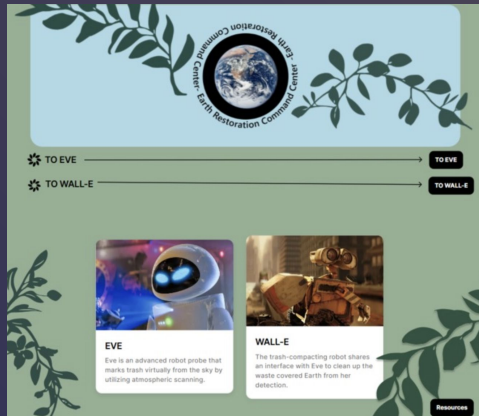

**Cinema-Inspired
Futuristic Technology**
(No-code)

1st Place

Lego Sets

Team 69: Earth Restoration Command Center

The site serves as a hub explaining the roles of two robots: EVE, which uses atmospheric scanning to virtually detect litter from the sky, and WALL-E, which uses that data to locate and collect litter on urban beaches. It highlights their importance in cleaning lake shores while showcasing their futuristic designs.

14: StoryVerse

Creators don't need more random ideas—they need a studio system that helps them build connected, binge-worthy narrative arcs instead of chasing virality. This platform provides a visual writers' room, collaborative production hub, and story-focused analytics engine to power a continuous creative growth loop from planning to performance-driven refinement.

How is a **Movie Awards Ceremony**?

Do you know what helps you make your point clear?
Lists like this one:

- ★ They're simple
- ★ You can organize your ideas clearly
- ★ You'll never forget to buy milk!

And the most important thing: the audience won't miss the point of your presentation

Ceremony **evolution**

Nominations

Jupiter is a gas giant and
it's very big

Music

Venus is the second
planet from the Sun

Spectacle

Mercury is the smallest
planet of them all

Awards

Despite being red, Mars is
actually a cold planet

Thank You!
